STUFF

FROM YOUR RETREAT HOA BOARD PRES!

July 31, 2017

What's going on!

Today it has begun!!!!!!

Cement work on curbs and gutters will be conducted over the next few days. The gate area may be partially congested and you may have to enter and exit through one side or the other as needed to facilitate the work in process. Please use extreme caution.

*In some cases, some of you will experience some real inconveniences as we have to replace or repairs on your driveway entrance and exit. **It will be necessary for you to not cross over, either entering or exiting your driveway after the cement is poured for 7 days so as to validate the warranty for the work be done.** Please plan to park on the street during this time. **Not everyone is effected by this.***

I will be posting notices on those directly effective.

DON FRUEH
